

## **About CCLA**

Not-for-profit organizations have unique investment needs.

That's why CCLA was established.

CCLA is owned entirely by its customers in the faith, charity and local authority sectors and we manage our business exclusively for their benefit, without the interests of outside shareholders to consider.

This puts us in a unique position to help not-for-profit organisations achieve their aspirations and enable trustees to meet their obligations.

Having managed funds for charities, large and small, since 1958 we know that needs vary widely and can be complex. Short-term obligations have to be met and longer-term spending has to be planned for. Getting the right balance is the key to success. To reflect this, we have developed a range of funds which provides great flexibility and choice.

We offer the largest and broadest range of common investment funds designed specifically for charities. This is backed up by a very high level of service, tailored specifically for the needs of organisations of all sizes and types.

As pioneers of socially responsible investment (SRI), we are committed to engaging with companies and other organisations in a constructive way to push forward a positive agenda for change. Our award winning team provides SRI and corporate governance services to our funds and works on a consultancy basis for a number of external funds.

We invest money for 45,000 charities, a number far higher than any other fund manager in the UK.
