

# CCLA Better World Global Equity Fund

## Investment objective

The fund aims to provide a total return (income plus capital growth) over the long term (defined as five years) by investing typically at least 80% of its assets (directly or indirectly) in shares of companies (also known as equities) from around the world and is managed in line with CCLA's Better World Policy.

## Investment philosophy

We believe investing in high-quality companies that can grow returns consistently at valuations that are attractive, should lead to outperformance over the long term. We look for companies which in our opinion:

- demonstrate an enduring competitive advantage, measured by their cash flow return on investment and a strong track record of shareholder value creation
- benefit from clear long-term growth trends
- benefit from superior financial strength, with a strong balance sheet
- are trading at valuations that are attractive.

## The 'Better World' policy

This product does not have a UK sustainable investment label. Sustainable investment labels help investors find products that have a specific sustainability goal. The fund does not use a sustainable investment label because it does not have a sustainability goal. However, the fund is managed in line with CCLA's approach to investing for a better world. This includes:

- 1 Acting as an agent for change, by:
  - actively using our ownership rights with a detailed engagement and voting policy
  - bringing investors together to address systemic issues
  - seeking to be a catalyst for change in the investment industry.
- 2 Assessing companies' ESG criteria, avoiding companies that in our opinion have:
  - poor management and weak corporate governance
  - unacceptable social and environmental impact
  - an unwillingness to improve through investor engagement.
- 3 Aligning our investments, acting as guardians of the assets we manage, with a responsibility to:
  - invest in a way that we believe is aligned with our clients' objectives, values and beliefs
  - report on the outcomes of our work
  - be transparent about what we do.

## Risk and reward profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk and reward indicator is based on a simulation of the volatility of the fund's value (using historical data) and it may change in the future. The fund is in category 5 because it invests in company shares, which can be expected to provide potentially higher rewards for higher risks than other investments, such as bonds or cash.

For more information please refer to the key investor information document (KIID).

<sup>2</sup> Totals may not sum due to rounding.

<sup>3</sup> The ACD may waive this minimum level at its discretion.

<sup>4</sup> The ongoing charges figure (OCF) includes the annual management charge (AMC) and other costs and expenses of operating and administering the fund such as depositary, custody, audit and regulatory fees. Where relevant, the OCF also includes synthetic charges. Synthetic charges are the effect that costs suffered as a result of investment in relevant underlying funds or similar investments have on the fund. The OCF does not include portfolio transaction costs. Further information on costs and expenses is available on our website.

<sup>5</sup> The AMC is deducted from capital. This has the effect of increasing the distributions for the year and restricting the fund's capital growth to an equivalent extent.

<sup>6</sup> The historic yield reflects distributions declared over the past twelve months as a percentage of the share price as at 31 October 2025. Investors may be subject to tax on their distributions.

# Building a Better World

Investment markets can only ever be as healthy as the environment and communities that support them. For this reason, we seek to manage our clients’ assets in a way that builds a better world.

## Acting as an agent for change

We believe that the best way to change company activities for the better is to be an active owner and to push for proactive public policy.

### Example: Sustainable Development Goal 3

#### Ensure healthy lives and promote well-being for all at all ages.

Mental ill-health in the workplace costs businesses billions due to a combination of absenteeism, presenteeism and staff turnover. Deloitte estimates an average cost of \$2,600 per employee each year. Novo Nordisk is one of 220 companies assessed and ranked yearly in the CCLA Corporate Mental Health Benchmark. We have been engaging with the company on this topic since 2022.

Since engagement began, the company has clarified management responsibility for mental health, disclosed health and safety certification and improved wellbeing performance data. The 2025 global mental health benchmark was published in October. It showed that Novo Nordisk has increased its score by 44 percentage in 2022-25, resulting in an upgrade from Tier 5 at the outset to Tier 3 and making it the third most improved company in the global benchmark since its inception.

## Climate-related risk disclosures for listed equity assets

### Carbon footprint<sup>7</sup>

■ Fund  
■ MSCI World Index

Source: MSCI.

### Climate value at risk (%)<sup>8</sup>

### Implied temperature rise (°C)<sup>9</sup>

7 Measures the carbon efficiency of a portfolio, defined as the ratio of carbon emissions for which an investor is responsible to the sales for which an investor has a claim by their equity ownership. This measure allows investors to know how many emissions units per dollar of sales are generated from their investment. Carbon footprint data relates to Scope 1 and Scope 2 emissions only.

8 Is a forward-looking measure of risk which estimates the amount of loss the portfolio may experience in future due to the impacts of climate change. The model used to calculate this measure is the REMIND 1.5°C NGFS Orderly transition scenario with an average physical risk scenario model. For further information on the model used, please visit [www.ngfs.net/ngfs-scenarios-portal](http://www.ngfs.net/ngfs-scenarios-portal).

9 Implied Temperature Rise (ITR) provides a portfolio level number in degrees of Celsius demonstrating how aligned the companies in the portfolio are to global temperature goals. It is a forward-looking metric that shows how a company aligns with the ambitions of the Paris Agreement – which is to keep a global temperature rise this century well below 2°C above pre-industrial levels and to pursue efforts to limit the temperature increase even further to 1.5°C.

# How do I assess the performance of the fund?

Investors can assess the fund's performance against the fund's comparator benchmark. The comparator benchmark has been selected as the fund is a globally diversified portfolio of equities and we consider the MSCI World Index as an appropriate representation of the returns from global equities.

## Important information

Source for data is CCLA unless otherwise stated.

This document is a financial promotion and is for information only. It does not provide financial, investment or other professional advice. To make sure you understand whether our product is suitable for you, please read the key investor information document and prospectus and consider the risk factors identified in those documents. The fund may not be appropriate for investors who wish to withdraw their investment within five years.

CCLA strongly recommend you get independent professional advice before investing. Past performance is not a reliable indicator of future results. The value of investments and the income from them may fall as well as rise. You may not get back the amount you originally invested and may lose money. Any forward-looking statements are based on our current opinions, expectations and projections. We may not update or amend these. Actual results could be significantly different than expected.

Issued by CCLA Investment Management Limited (registered in England and Wales, number 2183088, at One Angel Lane, London EC4R 3AB) who is authorised and regulated by the Financial Conduct Authority.

For information about how we collect and use your personal information please see our privacy notice, which is available at [www.ccla.co.uk/privacy-notice](http://www.ccla.co.uk/privacy-notice).
