

The CBF Church of England Investment Fund

Fund fact sheet – 30 September 2025

Investment objective

The fund aims to provide a total return (growth in capital and income) over the long term (defined as 5 years).

Investment policy

The fund is an actively managed, diversified portfolio of assets designed to help protect both present and future beneficiaries from the effects of inflation (as measured by the UK consumer prices index). It will have an emphasis on equities (between 50% and 85%) but will also include property, bonds and other asset classes, which may be either liquid or illiquid in nature. The fund is managed in line with a faith-consistent investment policy, developed by the manager, to meet shareholders' desire to invest in a way that reflects Christian and Anglican teachings and is grounded in the advice produced by the Church of England's Ethical Investment Advisory Group.

Who can invest?

Any church trust with objects connected with the work of the Church of England may normally invest in the fund. This can include parochial church councils, benefices and deaneries, bell ringers and Mothers' Union. The fund is available to Church of England schools and educational establishments as well as any other Church of England related organisation. If you are unsure whether you can invest in the fund, please contact Client Services.

Sustainability approach

We believe that the primary role of sustainable investment is to drive positive change and this is best achieved by pushing companies to do more to address the major challenges facing us today.

We aim to manage our clients' investments in a way that aligns with their values and to do this we consider environmental, social and governance (ESG) factors in our listed equity investment process and go beyond the boundaries of traditional investor engagement to drive change. The FCA has introduced sustainable investment labels to help investors find products that have a specific sustainability goal. This product does not have a UK sustainable investment label because it does not have a sustainability goal.
