

# Catholic Investment Fund

## Fund fact sheet – 31 December 2025

### Investment objective

The fund's investment objective is to provide a total return (growth in capital and income) **before** the deduction of any fees, costs or expenses, of inflation (as measured by the UK consumer prices index) plus 5% per year over the long term (defined as 5 years). There is no guarantee that this will be achieved and you could lose the money you have invested.

### Investment policy

The fund is actively managed and will invest in a broad range of assets, but with an emphasis on equities (between 50% and 85%). The fund can also invest in fixed-interest securities, money-market instruments, cash and near-cash, infrastructure related investments, deposits, gold and property, which may be either liquid or illiquid in nature. No more than 5% of the fund's portfolio will be invested in illiquid assets (investments which may be more difficult to buy or sell quickly at an advantageous time and/or price). The fund adopts an investment policy that is consistent with the faith and teachings of the Catholic Church and is guided by an independent Catholic faith-consistent investment committee to ensure that the investment policy adapts over time and remains relevant and in step with the Catholic Church's teachings.

### Who can invest?

Any charitable organisation in England and Wales, and any appropriate body in Scotland and Northern Ireland, that meets the definition of a charity as set out in Schedule 6 of the Finance Act 2010 and is recognised by HMRC as a charity for tax purposes may normally invest in the fund. This includes registered charities, exempt charities as well as charities not registered, such as some schools and academies. If you are unsure whether you can invest in the fund, please contact Client Services.

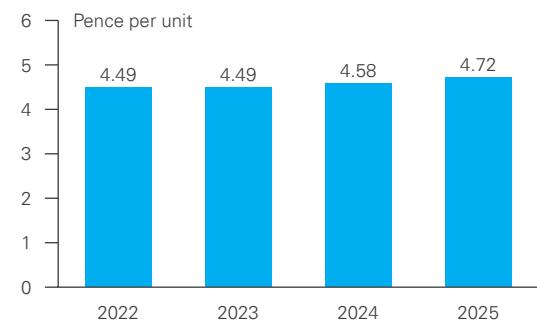

### Sustainability approach

We believe that the primary role of sustainable investment is to drive positive change and this is best achieved by pushing companies to do more to address the major challenges facing us today. We aim to manage our clients' investments in a way that aligns with their values and to do this we consider environmental, social and governance (ESG) factors in our listed equity investment process and go beyond the boundaries of traditional investor engagement to drive change. The FCA has introduced sustainable investment labels to help investors find products that have a specific sustainability goal. This product does not have a UK sustainable investment label because it does not have a sustainability goal. Read our summary of SDR, the investment labels and our overall approach at: [www.ccla.co.uk/sustainability](http://www.ccla.co.uk/sustainability).
