The CBF Church of England Short Duration Bond Fund

Fund fact sheet – 30 September 2026

Investment objective and policy

The fund aims to generate a total return (income plus capital growth) of cash (represented by the Sterling Overnight Index Average) plus 1.75% per year (after fees and expenses are deducted), when measured over a rolling three-year period. The fund will invest in a range of fixed interest and variable-rate debt securities (also known as bonds) and other debt-related instruments issued in a range of currencies by companies (known as corporate bonds) and governments, including loans, inflation-linked securities, money-market instruments, and asset-backed or other securitised products (financial instruments backed by assets that generate an income, for example, mortgages or student loans). The fund will be managed to ensure its duration is less than 3.5 years, with the aim of reducing the effect of changes in interest rates on the fund's value. The fund's duration measures the sensitivity of the value of the fund to a change in interest rates (the lower the duration the less impact a change in interest rates will have on the fund's value). The fund may invest in instruments that are either investment grade or non-investment grade (up to a maximum of 20% of the fund) as rated by a recognised credit rating agency that the manager or sub-investment manager has determined meets appropriate regulatory standards. For more details of the portfolio restrictions that apply to the fund, please see the scheme information. The fund uses derivatives (financial instruments whose value is linked to that of another asset) for investment purposes and efficient portfolio management (for example, hedging to reduce currency risk). The fund is managed in line with a faith-consistent investment policy, developed by the manager, to meet shareholders' desire to invest in a way that reflects Christian and Anglican teachings and is grounded in the advice produced by the Church of England's Ethical Investment Advisory Group.

Who can invest?

Any church trust with objects connected with the work of the Church of England may normally invest in the fund. This can include parochial church councils, benefices and deaneries, bell ringers and Mothers' Union. The fund is available to Church of England schools and educational establishments as well as any other Church of England related organisation. If you are unsure whether you can invest in the fund, please contact Client Services.

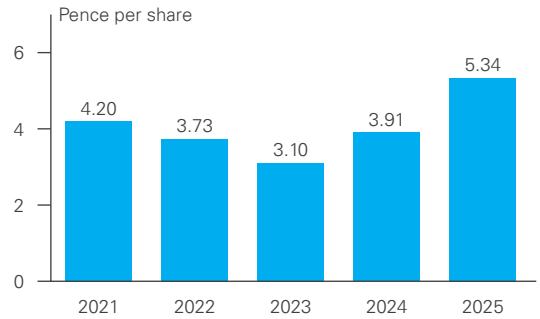

Sustainability approach

We believe that the primary role of sustainable investment is to drive positive change. The fund is managed in line with our sustainability approach for short duration bond funds which can be found at www.ccla.co.uk/about-us/policies-and-reports/policies/sustainability-approach-short-duration-bond-funds. The implementation of this approach involves the application of values-based investment restrictions in accordance with our values-based screening policy shown at www.ccla.co.uk/about-us/policies-and-reports/policies/values-based-screening-policy which are applied to meet the fund's faith-consistent investment policy and to be in common with CCLA's wider approach. The FCA has introduced sustainable investment labels to help investors find products that have a specific sustainability goal. This product does not have a UK sustainable investment label because it does not have a sustainability goal. Read our summary of SDR, the investment labels and our overall approach at www.ccla.co.uk/sustainability.
