

COIF Charities Investment Fund

Fund fact sheet – 31 December 2023

Investment objective

The fund aims to provide a total return (growth in capital and income) over the long-term (defined as 5 years).

Investment policy

The fund is an actively managed, diversified portfolio of assets designed to help protect both present and future beneficiaries from the effects of inflation (as measured by the consumer price index). It will have an emphasis on equities (between 50% and 85%) but will also include property, bonds and other asset classes, which may be either liquid or illiquid in nature.

The fund follows a client-driven ethical investment policy.

Target investors

The fund is designed for charities looking for income distributions and aiming for long-term protection from inflation.

Who can invest?

Any charitable organisation, as defined in the Charities Act 2011, can invest in the fund, provided that its powers permit.

Responsible investment policy

The fund is managed in line with the policy set by the board and CCLA's response to the UK Stewardship Code. Our voting record is available in the sustainability section on our website. The fund is also managed in accordance with CCLA's values-based screening policy which can be found in the policies and reports section on our website.

Fund update

There were no substantial changes over the latest quarter in the balance of asset classes held. Within equities most portfolio activity during the quarter was incremental, taking advantage of gains in some of the best-performing stocks to realise profits and reinvest in others which we considered to be better placed to add value in the coming periods. Among the companies in which we reduced the Fund's holdings were Intuit, provider of QuickBooks accountancy software; chipmaker Nvidia; and Novo Nordisk, the healthcare company behind weight-loss drugs which have surged in popularity. We continue to regard these as strong businesses but felt that some of the Fund's capital would be better applied elsewhere. Proceeds from these 'trims' were used to add to several existing holdings including medical device and scientific research suppliers Thermofisher, Danaher and Edwards Life Sciences; AND call centre software supplier Nice.
