Fund update

The portfolio is actively managed at both the strategic and individual asset level in support of the objectives of providing a high income and capital appreciation over the long term. Currently there is a strong bias towards industrial assets and away from retail where holdings are concentrated in the warehouse subsector and there is only a modest exposure elsewhere in the sector. In the quarter two sales were completed, both being office properties. A new tenancy in recently refurbished office space at 80 Cannon Street in the City of London, in addition to rent review and renewals in Kettering and at Manor Gate in Crawley, further enhanced the security of the Fund’s income.
