### Investment objective

The Fund aims to provide investors with an income yield and a total return in excess of the benchmark.

### Who can invest?

### Responsible investment policy

### Income

Gross redemption yield 1.66%\*\*

### Past distributions

### Fund update

The portfolio holds a diversified portfolio of high-quality fixed income securities and is structured to provide a consistent income payment over a medium-term horizon. We view the fixed income sector as over valued at current levels and, so, have in place a defensive strategy, reflected in a duration shorter than that of the benchmark, which should provide some support to values, if sector yields were to rise.

### Cumulative total return from 30/09/08\*\*\*

### Asset allocation at 30 September 2018

\* Based upon the net asset value and an estimated annual dividend of 4.44p.

\*\* The gross redemption yield indicates what the total return would be if the Fund’s investments were held to maturity, in other words, the aggregate of gross interest received and the capital gain or loss at redemption, annualised.

\*\*\* Source: CCLA – Gross performance shown before management fees and other expenses; net returns will differ after the deduction of fees and other expenses. Please note that past performance is no guarantee of future returns.
