### Fund update

The main focus of the investment strategy is on asset selection and management. The objective is to acquire high-quality assets which, through active management of lease structure or tenant relationship, can make a positive contribution to capital value and future income growth. This strategy is supported by active management of the sub-sector weightings, biasing the portfolio towards those parts of the sector expected to provide the strongest returns over time.

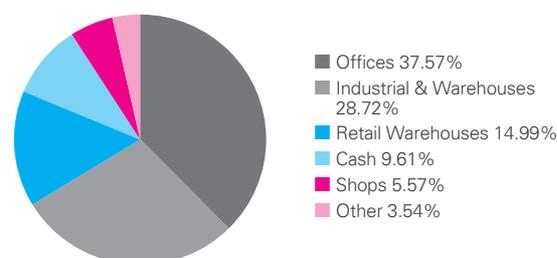

Recent activity has included the sale of a store in Cardiff at a price significantly above asset value. Purchases comprise of a hotel in the lake district; four more assets are under offer and should complete in the final quarter. This will take the portfolio effectively to a fully-invested position. Good progress has been made on the refurbishment and re-letting, including at the important office on Cannon Street, where the third floor has now been let.

### Past distributions

Income payments have stabilised at the lower rate.

### Gross asset allocation at 30 September 2018
