REPORT OF THE TRUSTEE

for the year ended 31 December 2017

On behalf of the Trustee, I have pleasure in presenting the Annual Report and Financial Statements of The CBF Church of England Fixed Interest Securities Fund (the Fund), which includes a separate report from CCLA Investment Management Limited (the Manager) as Manager of the Fund.

Structure and management

The Fund is a Common Fund established under the Church Funds Investment Measure 1958 as amended by the Church of England (Miscellaneous Provisions) Measure 1995 and the Trustee Act 2000 (together the Measure). The Fund was established in 1977. The Fund is neither a Collective Investment Scheme nor an Unregulated Collective Investment Scheme within the meaning of the Financial Services and Markets Act 2000 (FSMA).

CBF Funds Trustee Limited (CBFFT), a company incorporated under the Companies Act, limited by guarantee and not having a share capital is the Trustee and Operator of the Fund. CBFFT has an Audit Committee which meets twice each year to review the Financial Statements and to monitor the control environment in which the Fund operates.

CBFFT has delegated to the Manager, which is authorised and regulated by the Financial Conduct Authority (FCA), the investment management, administration, registration, secretarial and company secretarial functions of the Fund under Management Agreements dated September 2008.

Under the provisions of the Financial Services and Markets Act 2000 (FSMA), CBFFT is not considered to be operating the Fund by way of business. In consequence, it is not required to be authorised and regulated by the FCA and the trustee directors of CBFFT are not required to be authorised by the FCA for this purpose.

Investments in the Fund are not covered by the Financial Services Compensation Scheme. The Manager will pay fair compensation on eligible claims arising from its negligence or error in the management and administration of the Fund.

Charitable status of the Fund

The Fund is entitled to charitable status by virtue of section 96(2) of the Charities Act 2011. In the administration of the Fund, CBFFT is exempt from the jurisdiction of the Charity Commission by virtue of section 5(1) of the Church Funds Investment Measure 1958.

Investment objective

The Fund aims to provide investors with an income yield and a total return in excess of the Benchmark.

Investment policy

The portfolio is an actively managed, diversified portfolio invested predominantly in sterling denominated fixed interest securities and will consist primarily of UK fixed interest securities, but may also include other asset classes.

REPORT OF THE TRUSTEE

for the year ended 31 December 2017

Benchmark

The composite benchmark for the Fund is Markit iBoxx £ Gilts Index 50% and Markit iBoxx £ Non Gilts Index 50%.

Suitability

The Fund is suitable for the long-term funds of any Church of England charity seeking an income by investing in UK bonds.

Responsibilities of the Trustee

CBFFT receives a report on the published Financial Statements from the Manager twice a year and is wholly responsible for the Fund. CBFFT monitors the investment, property and cash management, administration, registration, secretarial and company secretarial services provided by the Manager under the respective Management Agreements. It meets quarterly with the Manager to monitor investment strategy, interest rate policy, investment diversification and risk and to review the Fund's performance. In addition, CBFFT reviews the Annual Report and Financial Statements of the Fund prepared on its behalf by the Manager.

Delegation of functions

Following its regular meetings and consideration of the reports and papers it has received, CBFFT is satisfied that the Manager, to whom it has delegated the administration and management of the Fund, has complied with the terms of the Measure and with the relevant Management Agreements.

Ethical investment

The Fund is managed in accordance with the policies of the Church of England's Ethical Investment Advisory Group (EIAG).

Throughout the year, CBFFT was represented on the EIAG by Rev Canon Edward Carter, a CBFFT Trustee Director.

The EIAG advises the Church's three National Investing Bodies (the Church Commissioners and Church of England Pensions Board being the other two) on ethical investment issues. Responsibility for accepting EIAG recommendations rests with the CBFFT.

The EIAG produces its own Annual Review which is available at <https://churchofengland.org/about-us/structure/eiag.aspx>.

Two representatives of the Manager also attend EIAG meetings: Michael Quicke, CCLA Chief Executive, and James Corah, Head of Ethical and Responsible Investment.

CCLA collaborates with the other Church National Investing Bodies to engage with investee companies on issues of particular concern to the Church.

REPORT OF THE TRUSTEE

for the year ended 31 December 2017

Responsible investment and stewardship

The Fund also implements CCLA's responsible investment policy, which we believe will improve long-term shareholder returns. The Manager is a signatory to the UN Principles of Responsible Investment (PRI) and is a member of CDP (formerly the Carbon Disclosure Project), the Institutional Investors group on Climate Change (IIGCC) and UK Sustainable Investment and Finance (UKSIF).

Controls and risk management

CBFFT receives and considers regular reports from the Manager. Ad hoc reports and information are supplied as required. CBFFT has appointed HSBC Bank plc to monitor the Manager in respect of its activities related to the management, oversight, supervision and administration of the Fund, including the custody and safekeeping of the property of the Fund. This monitoring provides an extra layer of comfort for shareholders.

The Manager has established an internal control framework to provide reasonable, but not absolute, assurance on the effectiveness of the internal controls operated on behalf of its clients. The effectiveness of the internal controls is assessed by the directors and senior management of the Manager on a continuing basis.

CBFFT receives internal audit reports on the controls of the Manager. During the year CBFFT, assisted by the Manager, reviewed the Fund's systems of internal control. At each of its meetings, the Audit Committee receives and reviews a formal risk management report from the Manager. This sets out the main risks facing the Fund, the controls in place to mitigate those risks and the assessment of each risk, in terms of both gross exposure and residual exposure after application of mitigating controls.

REPORT OF THE INVESTMENT MANAGER

for the year ended 31 December 2017

Strategy

The Fund is invested in UK government bonds and a diversified range of good quality corporate issues. Throughout the year, the portfolio has had a bias towards corporate issues to benefit from the higher income yields they traditionally provide. Overall, the portfolio had a shorter duration than the benchmark. This is part of a defensive strategy intended to provide protection against a future increase in yields. As at 31 December 2017 the asset allocation was 46.67% in gilts, 51.43% in corporate bonds and 1.90% in cash.

Performance

Over the year the Fund achieved a total return of 3.45% before expenses. This compares to a return on the benchmark of 3.15%. The return on an Income Share, after all costs and charges, but including the income paid to investors, was 3.10%, the return on an Accumulation Share was 3.11%; The relative performance was helped by an exposure to corporate bonds, which achieved stronger returns than the government alternatives. Less helpful was the overall defensive stance to strategy with a duration less than that on the benchmark; longer

dated bonds performed well. At 31 December 2017, the income yield on the fund was 3.93%. The gross redemption yield, which includes income and future changes in capital values, was 1.35%. When the income yield is higher than the gross redemption yield, then some income is being paid at the expense of capital.

Market Review

The UK fixed interest market traded in a narrow range over the year, ending the year with modest positive returns. Values were supported by the strong flow of cash available for investment, but there was also a number of factors which held back returns. Inflation was a particular problem, rising to over 3% due to the push to imported costs from currency weakness. The increased pace of global growth was another factor, because it made other assets potentially more attractive, but more importantly because stronger growth brought into question the justification for existing supportive monetary policies. The decision by the Bank of England to increase interest rates was expected by investors and so had little fresh impact on valuations. Although the Bank warned of further interest rate increases in the months ahead, investors remained sceptical of more than one move higher. The best performing parts of the sector were long dated corporate bonds and those with a lower credit rating which materially outperformed the returns on government bonds.

Outlook

We expect the UK economy to expand in the year at a pace similar to that experienced in 2017. Growth will be supported by the expansion in the world economy, but domestic demand will continue to be impacted by the brake on consumer expenditure caused by the UK's relatively high rate of inflation. A further increase in Official Base Rate is likely, but the timing of the move will depend on the blend of growth and inflation achieved. A key consideration will be the effect on bond demand from reduced quantitative easing programmes. These have been a key support to fixed interest markets in recent years, but the flow of new monies into investment markets from this source will decline sharply in 2018.

We view the sector as fully valued at what we believe is a mature phase of the credit cycle. In an environment of robust growth and rising interest rates it is quite possible that yields adjust higher, to the detriment of total returns. We expect to continue with a cautious bias to strategy.

Risk warning

The Fund's shares and the revenue from them can fall as well as rise and an investor may not get back the amount originally invested. Past performance is no guarantee of future returns.

The Fund's shares are intended only for long-term investment and are not suitable for money liable to be spent in the near future. They are realisable only on each weekly dealing day.

The Fund's income yield is an indication of the expected level of income. The corresponding gross redemption yield is an estimate of total return over the long-term. The Fund's income yield and gross redemption yield are not guaranteed and will change over time. When the Fund's income yield is higher than the gross redemption yield, some revenue is being paid at the expense of capital.

STATEMENT OF ETHICAL INVESTMENT POLICY

to the Shareholders of The CBF Church of England Fixed Interest Securities Fund

The Ethical Investment Policy embraces stewardship, engagement and investment exclusions.

Stewardship

The Church of England National Investing Bodies (NIBs) operate within the legal framework for investment by charities and pension funds. They owe certain fiduciary and other duties to their beneficiaries. Christian stewardship provides the context within which and informs the manner in which these duties are performed. The NIBs are signatories to the UK Stewardship Code which encourages institutional investors to act as good stewards of their equity investments through active ownership (monitoring, engagement and voting). The NIBs are signatories to the United Nations Principles for Responsible Investment (PRI) under which institutional investors pledge to incorporate environmental, social and governance (ESG) issues into investment analysis and decision-making processes and to be active owners across all asset classes. The NIBs recognise climate change as a distinct ethical investment issue and invest in line with a climate change policy.

Investment exclusions

The NIBs do not wish directly to profit from, or provide capital to, activities that are materially inconsistent with Christian values and are also mindful of the danger of undermining the credibility, effectiveness and unity of the Church's witness were they to do so. A range of investment exclusions is therefore maintained. The EIAG may, exceptionally, recommend

exclusion from investment of any individual company in any line of business on ethical grounds – normally if, after sustained dialogue, the company does not respond positively to EIAG concerns about its practices. In such cases the NIBs will determine individually whether to disinvest if they hold securities issued by the company. The EIAG and NIBs expect a recognition of responsibility and a resolve to improve, rather than perfection.

Direct investments in corporate debt: The NIBs do not invest in any company involved in indiscriminate weaponry. Moreover, they do not invest in companies involved in conventional weapons if their strategic military supplies exceed 10% of turnover. The NIBs do not invest in any company that derives more than 3% of revenues from the production or distribution of pornography or in any company, a major part of whose business activity or focus (defined as more than 10% of group revenues) is tobacco, gambling, non-military firearms, high interest rate lending or human embryonic cloning. A new policy on alcohol is in the process of implementation under which companies deriving more than 5% of their revenues from alcoholic drinks are only eligible for investment if they meet EIAG standards for responsible marketing and retailing. The new climate change policy does not allow investments in companies that derive more than 10% of revenue from tar sands or thermal coal.

STATEMENT OF ETHICAL INVESTMENT POLICY**to the Shareholders of The CBF Church of England Fixed Interest Securities Fund**

Individual policy documents are published separately – or are under development – setting out the criteria employed in each area to determine whether companies breach the Church’s policy and to explain the theology, ethics and reasoning underlying the policies.

Indirect investments via pooled funds: The NIBs are only able to invest in some assets, asset classes and investment strategies through pooled funds. Pooled funds are funds in which a number of different investors invest. Because the ethical investment policies of the EIAG and NIBs cannot be applied fully, or at all, in investments in pooled funds and indirect vehicles, it is essential that parameters are set for the use of pooled funds and indirect vehicles. The Pooled Funds Policy gives detailed guidance on how the NIBs should ensure that their use of pooled funds is consistent with ethical investment.

The Church of England Ethical Investment Advisory Group was established in 1994 and includes representation from the Church Commissioners for England, The CBF Church of England Funds, the Church of England Pensions Board, the General

Synod, the Archbishops’ Council, and the Mission & Public Affairs Council. Website: www.churchofengland.org/about-us/structure/eiag.aspx E-mail: eiag@churchofengland.org

INDEPENDENT AUDITORS' REPORT

to the Shareholders of The CBF Church of England Fixed Interest Securities Fund

Report on the audit of the financial statements*Opinion*

In our opinion, The CBF Church of England Fixed Interest Securities Fund's financial statements (the "financial statements"):

- give a true and fair view of the financial position of the Fund as at 31 December 2017 and of the net revenue and the net capital gains of its scheme property for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law), the Statement of Recommended Practice for UK Authorised Funds, and the Trust Deed.
- have been prepared in accordance with the requirements of the Church Funds Investment Measure 1958, as amended, and the Trustee Act 2000.

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise: balance sheet as at 31 December 2017; the statement of total return, the statement of change in net assets attributable to shareholders for the year then ended; the accounting policies; the distribution tables and the notes to the financial statements.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the Authorised Fund Managers' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Authorised Fund Manager has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Fund's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

INDEPENDENT AUDITORS' REPORT

to the Shareholders of The CBF Church of England Fixed Interest Securities Fund

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Fund's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Authorised Fund Manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Responsibilities for the financial statements and the audit

Responsibilities of the Authorised Fund Manager for the financial statements

As explained more fully in the Report of the Trustee set out on page 36, the Authorised Fund Manager is responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Authorised Fund Manager is also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Authorised Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Authorised Fund Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in

INDEPENDENT AUDITORS' REPORT**to the Shareholders of The CBF Church of England Fixed Interest Securities Fund**

accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinion, has been prepared for and only for the unitholders of the Fund as a body in accordance with the Trust Deed and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

RISK AND REWARD PROFILE

The risk and reward indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank, the greater the potential reward, but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Funds. The shaded area in the table below shows the Fund's ranking on the risk and reward indicator.

The Fund is ranked 4 because funds of this type have experienced average rises and falls in value in the past. Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases.

The risk and reward disclosures above are based upon categories of risk which were required to be disclosed as at 31 December 2017, the reporting date of these financial statements. From 1 January 2018, new measures of the categories of risk are in force, with the result that the risk disclosures currently available for the Fund in the Key Information Document are not on a comparable basis to the disclosures above.

For further risk information please see the Scheme Information, available on the Manager's website at www.ccla.co.uk.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 December 2017

1. Accounting policies

(a) Basis of preparation

The financial statements have been prepared on a going concern basis, in compliance with FRS 102 and in accordance with the Statement of Recommended Practice for UK Authorised Funds (SORP) issued by The Investment Management Association in May 2014 and the Trust Deed and the Collective Investment Scheme Sourcebook. The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments.

The Fund is exempt from preparing a statement of cash flows under FRS 102 as substantially all of the Fund's investments are highly liquid, substantially all of the Fund's investments are carried at market value and the Fund provides a statement of changes in net assets.

(b) Revenue recognition

Interest on Government stocks, debentures, convertible loan stocks, other fixed interest stocks, bank deposits and interest on deposits in The CBF Church of England Deposit Fund are accrued on a daily basis. Revenue from fixed rate securities is recognised on an effective yield basis.

Dividends on preference shares are accrued to revenue on the dates when the shares are first quoted ex-dividend or otherwise, on receipt of cash.

Revenue on debt securities is recognised on the effective yield basis which takes into account the amortisation of any discounts or premiums arising on the purchase price, compared to the final maturity value, over the remaining life of the security. Accrued interest purchased or sold is excluded from the cost of the security and is recognised as revenue of the Fund.

Revenue is stated net of irrecoverable tax credits.

(c) Expenses

The Manager's periodic charge and fee for ethical and stewardship services are charged to the revenue expenses of the Fund before distribution. The fee is based on a fixed percentage of the value of the Fund, which is currently 0.22% p.a. plus VAT, less a management fee rebate for the Fund's deposits in The CBF Church of England Deposit Fund. On a daily basis, the value of the Fund at the end of the previous day is taken to calculate the fee due. This fee covers the provision of investment services and other expenses incurred by the Manager. Audit, legal, custodian fees and transaction charges, insurance and monitoring fee are charged separately to the revenue of the Fund before distributions. The Trustee's administration fee is charged to the revenue of the Fund.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 December 2017

1. Accounting policies (*continued*)

(d) Distributions

Distributions are paid quarterly. The Fund utilises an income reserve to even out the fluctuations in revenue which arise over the years (see note 10). Movements in the income reserve are therefore adjustments made to the net revenue in determining the distributions.

It is the Fund's policy to calculate the distribution based on the revenue on debt securities which is computed as the higher of the amount determined on an accrual of coupon basis and an effective yield basis. The Fund has therefore adopted a distribution policy that follows the coupon basis for recognising revenue. A reconciliation of the net distribution to the net income of the Fund as reported in the Statement of Total Return is shown in note 6.

(e) Basis of valuation

Quoted investments, including investments with market observable prices, are valued at bid-market values, at the close of business, on the last business day of the accounting period.

Suspended securities are valued by the Manager having regard to the last quoted price on or before the date of suspension and subsequent available information. Suspended securities are written off after they have been carried at nil value for two years.

(f) Cash equivalents

The Manager has treated some assets as Cash equivalents for the purposes of the Balance Sheet disclosure. Investments are regarded as Cash equivalents if they meet all of the following criteria:

- highly liquid investments held in Sterling that are readily convertible to a known amount of cash;
- are subject to an insignificant risk of change in value; and
- provide a return no greater than the rate of a three month high quality government bond.

Audit fee net of VAT is £9,587 (31.12.2016, £9,308).

The above expenses include VAT where applicable.

5. Taxation

The Fund has charitable status and is exempt from UK Income and Capital Gains Tax pursuant to Part 11 Chapter 3 of the Corporation Tax Act 2010. Distributions are paid and reinvested revenue credited gross to shareholders on the basis that all recoverable UK taxation has been reclaimed. Overseas withholding tax is deducted in full from overseas revenue. Recoverable withholding tax is credited to revenue.

6. Distributions

Distributions take account of revenue received on the issue of shares and revenue deducted on the cancellation of shares, and comprise:

	Year ended 31.12.2017 £'000	Year ended 31.12.2016 £'000

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 December 2017

10. Income reserve

The income reserve, accumulated out of revenue, is used to smooth fluctuations in the revenue received in the Fund. The income reserve is included in the total value of the Fund and is attributable to income shareholders.

	Year ended 31.12.2017 £'000	Year ended 31.12.2016 £'000
Income reserve at the start of the year	947	1,012
Transfer from income reserve	(70)	(65)
Income reserve at the end of the year	877	947

11. Financial instruments*Fair value*

Securities held by the Fund are valued at bid-market value (see note 1(e)). Bid-market value is considered to be a fair representation of the amount repayable to shareholders should they wish to sell their shares. Other financial assets and liabilities of the Fund are included in the balance sheet at their fair value.

The main risks arising from the Fund's financial instruments and the Manager's policies for managing these risks are summarised below. These policies have been applied consistently throughout the year and the comparative year.

Market price risk

This is an actively managed Fund which invests in sterling fixed interest securities. Investors are thus exposed to market price risk, which can be defined as the uncertainty about future price movements of the financial instruments the Fund is invested in. Market price risk arises mainly from economic factors, including investor confidence and is not limited to interest rate and currency movements. This exposure to market price risk may result in substantial fluctuations in the share price from time to time, although there will generally be a close correlation in the movement of the share price to the markets the Fund is invested in. The Fund seeks to minimise the risks by holding a diversified portfolio of investments in line with the Fund's investment objectives. Risk is monitored at both the asset allocation and stock selection levels by Directors of the Manager on a regular basis and also by the Board.

NOTES TO THE FINANCIAL STATEMENTS
for the year ended 31 December 2017

11. Financial instruments (continued)

Market price risk (continued)

At 31 December 2017, if the price of the investments held by the Fund increased or decreased by 5%, with all other variables remaining constant, then the net assets attributable to Shareholders, and profit or loss, would increase or decrease respectively by approximately £2,229,000 (31.12.2016, £2,454,000).

Credit risk

The Fund's transactions in securities expose it to the risk that the counterparty will not deliver the investment for a purchase or the cash for a sale. To minimise this, the Fund only deals with an approved list of brokers maintained by the Manager. The corporate bond holdings in the Fund are also exposed to the risk of issuer default; however, we mitigate this risk by purchasing investment grade bonds.

Portfolio asset allocation by credit rating

Rating category	31.12.2017 % Fund	31.12.2016 % Fund
AAA	9.5	14.6
AA	53.1	52.4
A	8.7	8.7
BBB	20.8	18.8
Non investment grade	2.2	2.7
Not rated (Debentures/Preference Shares)	5.7	2.8

Liquidity risk

Financial instruments held by the Fund, excluding short-term debtors and creditors, are made up of sterling fixed interest securities and sterling cash deposits. These assets are generally liquid and enable the Fund to meet the payment of any redemption of shares that shareholders may wish to make.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 December 2017

11. Financial instruments (continued)

Currency risk

There is no exposure to foreign currency fluctuations as all investments, revenue and short-term debtors and creditors are denominated in sterling.

Interest rate risk

The Fund invests in fixed interest securities and cash deposits. The revenue may be affected by changes to interest rates relevant to particular securities or as a result of the Manager being unable to secure similar returns following the disposal or redemption of securities. The value of fixed interest securities may be affected by interest rate movements or the expectation of such movements in the future.

As at 31 December 2017, it is estimated that a 1% movement in interest rates would result in an opposite movement of £4,163,000 (31.12.2016, £4,662,000) in net assets attributable to shareholders and profit or loss.

The interest rate profile of the Fund's financial assets and liabilities at 31 December 2017 was as set out below:

Currency	Floating rate financial assets* £'000	Fixed rate financial assets £'000	Financial assets not carrying interest £'000	Total £'000
Sterling	3,448	42,460	654	46,562

Currency	Floating rate financial liabilities £'000	Fixed rate financial liabilities £'000	Financial liabilities not carrying interest £'000	Total £'000
Sterling	–	–	460	460

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 December 2017

11. Financial instruments (continued)

Interest rate risk (continued)

The total exposure at 31 December 2016 was:

Currency	Floating rate financial assets* £'000	Fixed rate financial assets £'000	Financial assets not carrying interest £'000	Total £'000
Sterling	4,230	46,840	770	51,840

Currency	Floating rate financial liabilities £'000	Fixed rate financial liabilities £'000	Financial liabilities not carrying interest £'000	Total £'000
Sterling	–	–	510	510

* The floating rate financial assets of the Fund earn interest at rates based on either LIBOR or base rate.

All financial liabilities are due to be settled within one year or on demand.

There were no derivatives held by the Fund during the current year or prior year.

12. Commitments and contingent liabilities

There were no commitments or contingent liabilities as at 31 December 2017 (31.12.2016, £nil).

13. Related party transactions

The Manager's periodic charge and fee for ethical and stewardship services are paid to the Manager, a related party to the Fund. The amounts incurred in respect of these charges are disclosed in note 4. An amount of £10,465 was due to the Manager at 31 December 2017 of £10,465 (31.12.2016, £11,455). there were no other transactions entered into with the Manager during the year.

CBFFT, as Trustee, is a related party to the Fund. There were no outstanding balances due to CBFFT at 31 December 2017 (31.12.2016, £nil). There were no other transactions entered into with CBFFT during the year.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31 December 2017

13. Related party transactions (continued)

At 31 December 2017 a cash balance of £1,259,345 (31.12.2016, £1,718,679) was held in The CBF Church of England Deposit Fund. During the year, the Fund received interest of £1,974 (31.12.2016, £8,990) from The CBF Church of England Deposit Fund.

There is no individual investor holding more than 20% of the Fund.

14. Portfolio transaction costs

For the year ended 31 December 2017:

The purchases and sales of securities incurred no direct transaction costs during the year.

The average portfolio dealing spread as at the balance sheet date was 0.37%. There is no foreign exchange impact as all investments are denominated in sterling.

Unlike shares, the majority of other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment.

For the year ended 31 December 2016:

The purchases and sales of securities incurred no direct transaction costs during the year.

The average portfolio dealing spread as at the balance sheet date was 0.54%. There is no foreign exchange impact as all investments are denominated in sterling.

Unlike shares, the majority of other types of investments (such as bonds, money market instruments, derivatives) have no separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and market sentiment.

Shares converted in year	99,992	(31,117)
Closing number of shares at end of year	26,172,332	405,695

All shares carry the same rights.

16. Fair value of financial assets and financial liabilities

In respect of financial assets and liabilities other than investments, there is no material difference between their value, as shown on the balance sheet, and their fair value.

Investments are held at fair value. An analysis of the valuation technique used to derive fair value of the investments is shown below:

The fair value of investments has been determined using the following hierarchy:

- Level 1 The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 Inputs other than quoted prices included above that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3 Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

NOTES TO THE FINANCIAL STATEMENTS

STATEMENT OF TRUSTEE AND MANAGER RESPONSIBILITIES

The Trustee shall comply with the duty of care when exercising their powers and discharging their duties under the Church Funds Investment Measure 1958 (as amended from time to time) and the Trustee Act 2000 (together the Measure) to:

- determine the criteria and methods for evaluating the performance of the Fund;
- appoint the Auditor of the Fund and agree their terms of engagement;
- determine the rate of remuneration of the Manager in accordance with the measure and the Scheme Information;
- exercise supervision and oversight of the Manager's compliance with the Measure and the Scheme Information. In particular, the Trustee shall be satisfied on a continuing basis that the Manager is competently exercising the powers and discharging the duties conferred or imposed on it by or pursuant to the provisions of the Measure and ensure the Manager is maintaining adequate and proper records;
- review the appointment, supervision and oversight of any Registrar or other delegate whom it has appointed in accordance with the provisions of this Scheme;
- review the custody and control of the property of the Fund and the collection of all revenue due to the Fund in accordance with the Measure;
- make distributions to investors holding income shares and make allocations to investors holding accumulation shares in proportion to their respective shares in the property of the Fund; and
- take all steps and execute all documents which are necessary to ensure that the purchases and sales of investments for the Fund are properly completed.

STATEMENT OF TRUSTEE AND MANAGER RESPONSIBILITIES

Preparation of financial statements

The Trustee of the Fund is required, by the Measure, to prepare Financial Statements which give a true and fair view of the financial position of the Fund at each interim and year end valuation date. The net revenue for the year, together with a report on the operation of the Fund, is also required.

The financial statements show the net asset value of the shares in the Fund as at the date to which the financial statements are prepared, the amount of revenue per share and the amount of revenue, if any, to be transferred to capital pursuant to paragraph 11 of the Schedule to the Measure. In preparing the financial statements, the Trustee:

- selects suitable accounting policies that are appropriate for the Fund and applies them on a consistent basis;
- complies with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds (SORP) issued by The Investment Management Association in May 2014;
- follows generally accepted accounting principles and applicable United Kingdom accounting standards;
- keeps proper accounting records which enables them to demonstrate that the Financial Statements, as prepared, comply with the above requirements;

- make judgements and estimates that are prudent and reasonable; and
- prepares the Financial Statements on the going concern basis, unless it is inappropriate to presume this.

The Trustee is also required to manage the Fund in accordance with the Measure and has delegated to the Manager the day-to-day management, accounting and administration of the Fund, as permitted by the Measure.

Manager responsibilities

The Manager is required to carry out these duties in accordance with the Measure and take reasonable steps for the prevention and detection of fraud and other irregularities.
