REPORT OF THE TRUSTEE**for the half year ended 30 June 2018 (unaudited)**

On behalf of the Trustee, I have pleasure in presenting the Interim Report and Unaudited Financial Statements of The CBF Church of England Global Equity Income Fund (the Fund), which includes a separate report from CCLA Investment Management Limited (the Manager) as Manager of the Fund.

Structure and management of the Fund

The Fund is a Common Fund established under the Church Funds Investment Measure 1958, as amended by the Church of England (Miscellaneous Provisions) Measure 1995, the Church of England (Miscellaneous Provisions) Measure 2000 and the Trustee Act 2000 (together the Measure). The Fund was formed on 28 September 2007. The Fund is neither a Collective Investment Scheme nor an Unregulated Collective Scheme within the meaning of the Financial Services and Markets Act 2000 (FSMA).

CBF Funds Trustee Limited (CBFFT), a company incorporated under the Companies Act, limited by guarantee and not having a share capital, is the Trustee and Operator of the Fund. CBFFT has an Audit Committee which meets twice each year to review the Financial Statements and to monitor the control environment in which the Fund operates.

CBFFT has delegated to the Manager, which is authorised and regulated by the Financial Conduct Authority (FCA), the investment management, administration, registration, secretarial and company secretarial functions of the Fund under Management Agreements dated 18 September 2007.

Under the provisions of the Financial Services and Markets Act 2000 (FSMA), CBFFT is not considered to be operating the Fund by way of business. In consequence, it is not required to be authorised and regulated by the FCA and the trustee directors of CBFFT are not required to be authorised by the FCA for this purpose.

Investments in the Fund are not covered by the Financial Services Compensation Scheme. The Manager will pay fair compensation on eligible claims arising from its negligence or error in the management and administration of the Fund.

Charitable status of the Fund

The Fund is entitled to charitable status by virtue of section 96(2) of the Charities Act 2011. In the administration of the Fund, CBFFT is exempt from the jurisdiction of the Charity Commission by virtue of section 5(1) of the Church Funds Investment Measure 1958.

Investment objective

The Fund aims to provide a high level of income with long-term capital growth.

REPORT OF THE TRUSTEE**for the half year ended 30 June 2018 (unaudited)****Investment policy**

The Fund is an actively managed, diversified portfolio of global equities. It will principally invest in UK and overseas equities, but may also invest in other assets.

Benchmark

MSCI™ World Index is the benchmark for the Fund.

Distribution policy

From 1 January 2018, the Fund had the capacity to make distributions from capital.

Suitability

The Fund is suitable for the long-term funds of any Church of England charity seeking a high income from investing in global equities.

Responsibilities of the Trustee

CBFFT receives a report on the published Financial Statements from the Manager twice a year and is wholly responsible for the Fund. CBFFT monitors the investment, property and cash management, administration, registration, secretarial and company secretarial services provided by the Manager under the respective Management Agreements. It meets quarterly with the Manager to monitor investment strategy, dividend and interest rate policy, investment diversification and risk and to review the Fund's performance. In addition, CBFFT reviews the Report and Financial Statements of the Fund prepared on its behalf by the Manager.

CBFFT is responsible for appointing an Audit Committee, the Auditor and the Custodian. It reviews annually the objectives of the Fund in the light of current circumstances.

Delegation of functions

Following its regular meetings and consideration of the reports and papers it has received, CBFFT is satisfied that the Manager, to whom it has delegated the administration and management of the Fund, has complied with the terms of the Measure and with the relevant Management Agreements.

Ethical investment

The Fund is managed in accordance with the policies of the Church of England's Ethical Investment Advisory Group (EIAG).

Throughout the year, CBFFT was represented on the EIAG by Rev Canon Edward Carter, a CBFFT Trustee Director.

The EIAG advises the Church's three National Investing Bodies (the Church Commissioners and Church of England Pensions Board being the other two) on ethical investment issues. Responsibility for accepting EIAG recommendations rests with the CBFFT.

The EIAG produces its own Annual Review which is available at <https://churchofengland.org/about-us/structure/eiag.aspx>.

REPORT OF THE TRUSTEE**for the half year ended 30 June 2018 (unaudited)**

Two representatives of the Manager also attend EIAG meetings: Michael Quicke, CCLA Chief Executive, and James Corah, Head of Ethical and Responsible Investment.

CCLA collaborates with the other Church National Investing Bodies to engage with investee companies on issues of particular concern to the Church.

Responsible investment and stewardship

The Fund also implements CCLA's responsible investment policy, which we believe will improve long-term shareholder returns. This includes policies to integrate environmental, social and governance (ESG) factors into the investment decision making process and stewardship activities with Fund holdings. The Manager's response to the UK Stewardship Code and their full quarterly voting record is available at www.ccla.co.uk.

The Manager is a signatory to the UN Principles of Responsible Investment (PRI) and is a member of CDP (formerly the Carbon Disclosure Project), the Institutional Investors group on Climate Change (IIGCC) and UK Sustainable Investment and Finance (UKSIF).

Controls and risk management

CBFFT receives and considers regular reports from the Manager. Other ad hoc reports and information are supplied as required.

CBFFT has appointed HSBC Bank plc to monitor the Manager in respect of its activities related to the management, oversight, supervision and administration of the Fund including the custody and safekeeping of the property of the Fund. This monitoring provides an additional layer of comfort for shareholders.

The Manager has established an internal control framework to provide reasonable, but not absolute, assurance on the effectiveness of the internal controls operated on behalf of its clients. The effectiveness of the internal controls is assessed by the directors and senior management of the Manager on a continuing basis.

CBFFT receives internal audit reports on the controls of the Manager. During the year CBFFT, assisted by the Manager, reviewed the Fund's systems of internal control. At each of its meetings, the Audit Committee receives and reviews a formal risk management report from the Manager. This sets out the main risks facing the Fund, the controls in place to mitigate those risks and the assessment of each risk, in terms of both gross and residual exposure after application of mitigating controls.

A Brookes, Chairman
CBF Funds Trustee Limited

REPORT OF THE INVESTMENT MANAGER for the half year ended 30 June 2018 (unaudited)

Strategy

The portfolio is constructed on a 'bottom-up' basis, that is by selecting the individual investments we consider to be the most attractive, rather than by having a pre-determined allocation to any region or sector. Since the start of 2018 the Fund has employed a total return approach to income by which the distribution to investors can be supported by the income flow from the portfolio and by long term capital growth.

Performance

Over the first half of the year the Fund achieved a return before expenses of 6.03%. This

compares with a return of 2.90% on the benchmark. The total return on an Income Share after all costs and charges was 5.50%, that on an Accumulation Share 5.51%. The income distribution to investors was 3.52p, the same as that paid in the equivalent period of 2017. The expectation is that the payment for the year will be unchanged. The relative performance of the Fund was supported by strong stock selection results. The move to a total return approach to income at the start of the year was also beneficial as it removed the regional and sectoral constraints on asset allocation which the previous income focus had required.

REPORT OF THE INVESTMENT MANAGER for the half year ended 30 June 2018 (unaudited)

Economic and Investment Market Review

The global economy continued to expand in the first half of the year, although the rate of expansion did not quite match that achieved in the closing months of 2017. Growth in the US, boosted by tax cuts, continued at a high level, but activity growth reduced in Europe, including the UK, and Japan. In China, growth continued comfortably above the 6.5% rate forecast for the year. Global inflation remained relatively modest, despite a rise in the oil price and low levels of unemployment in large parts of the developed world. A worrying theme in the period was increased trade friction as the US introduced duties on a range of imported goods, actions which were reciprocated by trading partners.

Most of the major equity indices gave positive returns to a sterling-based investor although, in some areas, currency factors supported the gains. The global equity index gave a return of 2.15% for the period overall, values fell in the first few months and rallied strongly in the second quarter. The strongest performer was the US, up by 5.37%. The return from the UK was 1.69% and that from Japan 0.53%. In contrast, values were -1.01% lower in Europe and -2.27% down in Asia, reflecting weaker trends in a number of emerging economies. At the individual market level, Finland was the best European performer, with a return of +12.61%, Greece the worst, -6.65%. In Asia, gains were harder to find. New Zealand was the strongest market, +3.20%, the Philippines the weakest, -18.44%. At the sector level, as with the national indices, there was an increased level of volatility. Overall, IT

continued to do well and there was a strong rally in the oil sector, reflecting the strength in the oil price.

Outlook

We expect continued growth in the world economy at rates close to, but maybe not quite matching, those currently enjoyed. Activity will be supported by accommodative monetary policies, some improvement in consumer incomes and the effects of tax cuts in the US. Inflation is expected to remain modest and whilst it might edge higher from current levels, is not expected to be a significant concern. Monetary conditions will gradually normalise, but only in the US and to a limited degree the UK, are higher interest rates likely. The current economic upswing is old, but is not yet showing signs of coming to a close.

A backcloth of economic growth and higher profits should support equity prices in the period ahead. Valuations are not cheap, but neither are they so stretched that good profit growth cannot be reflected in higher prices. Our approach will continue to favour strong companies with good growth potential independent of broad economic trends.

J Bevan
Chief Investment Officer

REPORT OF THE INVESTMENT MANAGER
for the half year ended 30 June 2018 (unaudited)

Top ten changes in portfolio composition

	Cost £'000		Proceeds £'000
Purchases:		Sales:	
Fidelity National Information	1,869	Anta Sports	2,438
McDonald's	1,685	Samsonite International	1,933
NASDAQ OMX Group	1,638	Brookfield Infrastructure Partners	1,606
Fresenius	1,534	Blackstone Mortgage	1,603
Canadian Pacific Railway	1,402	Vodafone	1,349
SS&C Technologies	1,251	HSBC	1,346
Alphabet	1,185	Princess Private Equity	1,339
Recruit Holdings	1,025	Chicago Mercantile Exchange	1,228
Tencent Holdings	959	KDDI	1,205
AIA	888	Roche	1,194

When a stock has both purchases and sales in the reporting period, these transactions have been netted and the net amount has been reflected as either a net purchase or net sale in the table above.

Risk warning

The Fund's shares and the revenue from them can fall as well as rise and an investor may not get back the amount originally invested. Past performance is no guarantee of future returns.

The Fund's shares are intended only for long-term investment and are not suitable for money liable to be spent in the near future. They are realisable only on each weekly dealing day.

The Fund may invest in emerging market countries which could be subject to political and economic change. The Fund may also invest in collective investment schemes and other assets. The Fund's share value will reflect fluctuations in the securities prices and currency exchange rates.

STATEMENT OF ETHICAL INVESTMENT POLICY

to the Shareholders of The CBF Church of England Global Equity Income Fund

The Ethical Investment Policy embraces stewardship, engagement and investment exclusions.

Stewardship

The Church of England National Investing Bodies (NIBs) operate within the legal framework for investment by charities and pension funds. They owe certain fiduciary and other duties to their beneficiaries. Christian stewardship provides the context within which and informs the manner in which these duties are performed. The NIBs are signatories to the UK Stewardship Code which encourages institutional investors to act as good stewards of their equity investments through active ownership (monitoring, engagement and voting). The NIBs are signatories to the United Nations Principles for Responsible Investment (PRI) under which institutional investors pledge to incorporate environmental, social and governance (ESG) issues into investment analysis and decision-making processes and to be active owners across all asset classes. The NIBs recognise climate change as a distinct ethical investment issue and invest in line with a climate change policy.

Engagement

The NIBs expect companies in which they invest to manifest sustainable environmental practice, fair treatment of customers and suppliers, responsible employment practices, conscientiousness with regard to human rights, sensitivity towards the communities in which they operate and best corporate governance practice. The NIBs engage with investee companies to seek improvement in ethical standards in these areas.

There are specific policies on Executive Remuneration and Business and Engagement. From time to time, policies, papers and reports are also published to inform engagement on individual environmental and social issues.

Investment exclusions

The NIBs do not wish directly to profit from, or provide capital to, activities that are materially inconsistent with Christian values and are also mindful of the danger of undermining the credibility, effectiveness and unity of the Church's witness were they to do so. A range of investment exclusions is therefore maintained. The EIAG may, exceptionally, recommend exclusion from investment of any individual company in any line of business on ethical grounds – normally if, after sustained dialogue, the company does not respond positively to EIAG concerns about its practices. In such cases the NIBs will determine individually whether to disinvest if they hold securities issued by the company. The EIAG and NIBs expect a recognition of responsibility and a resolve to improve, rather than perfection.

STATEMENT OF ETHICAL INVESTMENT POLICY

to the Shareholders of The CBF Church of England Global Equity Income Fund

Direct investments in equities and corporate debt: The NIBs do not invest in any company involved in indiscriminate weaponry. Moreover, they do not invest in companies involved in conventional weapons if their strategic military supplies exceed 10% of turnover. The NIBs do not invest in any company that derives more than 3% of revenues from the production or distribution of pornography or in any company, a major part of whose business activity or focus (defined as more than 10% of group revenues) is tobacco, gambling, non-military firearms, high interest rate lending or human embryonic cloning. A new policy on alcohol is in the process of implementation under which companies deriving more than 5% of their revenues from alcoholic drinks are only eligible for investment if they meet EIAG standards for responsible marketing and retailing. The new climate change policy does not allow investments in companies that derive more than 10% of revenue from tar sands or thermal coal.

Individual policy documents are published separately – or are under development – setting out the criteria employed in each area to determine whether companies breach the Church’s policy and to explain the theology, ethics and reasoning underlying the policies.

Indirect investments via pooled funds: The NIBs are only able to invest in some assets, asset classes and investment strategies through pooled funds. Pooled funds are funds in which a number of different investors invest. Because the ethical investment policies of the EIAG and NIBs cannot be applied fully, or at all, in investments in pooled funds and indirect vehicles, it is essential that parameters are set for the use of pooled funds and indirect vehicles. The Pooled Funds Policy gives detailed guidance on how the NIBs should ensure that their use of pooled funds is consistent with ethical investment.

The Church of England Ethical Investment Advisory Group was established in 1994 and includes representation from the Church Commissioners for England, The CBF Church of England Funds, the Church of England Pensions Board, the General

Synod, the Archbishops’ Council, and the Mission & Public Affairs Council. Website: www.churchofengland.org/about-us/structure/eiag.aspx E-mail: eiag@churchofengland.org

RISK AND REWARD PROFILE

The European Union imposed regulations which sets out detailed guidelines for the calculation of the risk ratings to be portrayed through this summary risk indicator. It is intended to be a guide to the level of risk of this product compared to other products and how likely it is that the Fund will lose money because of movements in markets. The risk indicator assumes investment in the Fund for the recommended holding period of five years.

In practice, the risk of the Fund may be significantly higher than that represented in the summary risk indicator. This may include the effect of holding the Fund for less than the recommended holding period, or if market volatility in the future is higher than that experienced over the past.

With effect from 1 January 2018, new EU regulations changed the requirements for the calculation of the summary risk indicator, which has had the effect of significantly reducing its level. The risk indicator for this Fund in the 31 December 2017 annual report was 6 out of 7. Based on the revised legislative requirements, the risk indicator in last year's report would have been 4 out of 7.

It is important that investors recognise that, whilst the classification has changed, there has been no change to the nature of the fund or the risk associated with investing in the global equity asset class.

This year, based on the new legislative obligations, we have classified this Fund as 3 out of 7.

The Fund should be considered illiquid as it is not admitted to trading on a secondary market and no alternative liquidity facility is promoted by the Manager or a third party. This product does not include any protection from future market performance so you could lose some or all your investment.

A more detailed description of risk factors that apply to this product is set out in the latest Scheme Information document available on CCLA's website or by request.

NOTE TO THE FINANCIAL STATEMENTS
for the half year ended 30 June 2018 (unaudited)

1. Accounting policies

Basis of preparation

The financial statements have been prepared on a going concern basis, in compliance with FRS 102 and in accordance with the Statement of Recommended Practice for UK Authorised Funds (SORP) issued by the Investment Management Association in May 2014 and the Trust Deed and the Collective Investment Scheme Sourcebook. The financial statements have been prepared under the historical cost basis, as modified by the revaluation of investments.

The Fund is exempt from preparing a statement of cash flows under FRS 102 as substantially all of the Fund's investments are highly liquid, substantially all of the Fund's investments are carried at market value and the Fund provides a statement of change in net assets.

Unless otherwise stated, all other accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2017 and are described in those financial statements.

STATEMENT OF TRUSTEE AND MANAGER RESPONSIBILITIES

The Trustee shall comply with the duty of care when exercising their powers and discharging their duties under the Scheme of the Charity Commission made under the Charities Act 1993 (amended Charities Act 2011), dated 14 May 2008, for the Fund to:

- make and revise the written statement of the investment objectives of the Fund and details of such investment objectives will be included in the Scheme Information;
- determine the criteria and methods for evaluating the performance of the Fund;
- appoint the Auditor of the Fund and agree their terms of engagement;
- determine the rate of remuneration of the Trustee and the Manager in accordance with the Scheme and the Scheme Information;
- exercise supervision and oversight of the Manager's compliance with the Measure and the Scheme Information. In particular, the Trustee shall be satisfied on a continuing basis that the Manager is competently exercising the powers and discharging the duties conferred or imposed on it by or pursuant to the provisions of the Measure and ensure the Manager is maintaining adequate and proper records;
- review the appointment, supervision and oversight of any Registrar or other delegate whom it has appointed in accordance with the provisions of this Scheme;
- review the custody and control of the property of the Fund and the collection of all revenue due to the Fund in accordance with the Measure;
- make distributions to investors holding income shares and make allocations to investors holding accumulation shares in proportion to their respective shares in the property of the Fund; and
- take all steps and execute all documents which are necessary to ensure that the purchases and sales of investments for the Fund are properly completed.

STATEMENT OF TRUSTEE AND MANAGER RESPONSIBILITIES**Preparation of financial statements**

The Trustee of the Fund is required, by the Measure, to prepare financial statements which give a true and fair view of the financial position of the Fund at each interim and year end valuation date. The net revenue for the year, together with a report on the operation of the Fund, is also required.

The financial statements show the net asset value of the shares in the Fund as at the date to which the financial statements are prepared, the amount of revenue per share and the amount of revenue, if any, to be transferred to capital pursuant to paragraph 11 of the Schedule to the Measure. In preparing the financial statements, the Trustee:

- selects suitable accounting policies that are appropriate for the Fund and applies them on a consistent basis;
- complies with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds (SORP) issued by the Investment Management Association in May 2014;
- follows generally accepted accounting principles and applicable United Kingdom accounting standards;
- keeps proper accounting records which enables them to demonstrate that the financial statements, as prepared, comply with the above requirements;

- makes judgments and estimates that are prudent and reasonable; and
- prepares the financial statements on the going concern basis unless it is inappropriate to presume this.

The Trustee is also required to manage the Fund in accordance with the Measure and has delegated to the Manager the day-to-day management, accounting and administration of the Fund, as permitted by the Measure.

Manager responsibilities

The Manager is required to carry out these duties in accordance with the Measure and take reasonable steps for the prevention and detection of fraud and other irregularities.

The CBF Church of England Funds

The CBF Church of England Funds provide Church of England parishes, dioceses and other church charitable trusts with a ready-made service to look after their money and investments. These Funds aim to provide prudent management of Church money avoiding unnecessary risks, but at the same time seeking to deliver satisfactory investment results.

A choice of Funds

The six CBF Church of England Funds aim to meet most of the investment and deposit needs of a church trust.

Investment Fund

- A suitable 'all-in-one' long-term fund for most church organisations
- Highly diversified and well-balanced spread of investments
- Designed to help meet growth and income requirements
- Focus on delivering attractive, growing income
- Working with the EIAG to reflect appropriately ethical values in your investments

Global Equity Income Fund

- Attractive income
- Steady income in the future
- Strong growth opportunities from the global economy

UK Equity Fund

- The only UK equity fund managed to reflect Church ethical values
- High quality, well-diversified portfolio
- Designed to help meet growth and income requirements
- Usually held with other investments such as overseas equities, bonds and cash to give a broad spread of assets and achieve overall objectives

Fixed Interest Securities Fund

- Long-term investment focused on income
- Gross income paid quarterly
- Usually held with other investments such as equities and cash to give a broad spread of assets and achieve combined income and growth objectives

Property Fund

- Investing in high quality, well-diversified commercial and industrial property
- Focus on delivering attractive income
- Actively managed to add value

Deposit Fund

- An attractive rate
- Interest paid gross
- No minimum balance
- Easy access
- Simple operation
- Excellent service
- Free BACS transfers
- AAAf/S1 Fund rating from Fitch Ratings

The Funds are common funds established under the Church Funds Investment Measure 1958 (as amended from time to time). CBF Funds Trustee Limited, a company incorporated under the Companies Act, is the Trustee and Operator of the Funds. CCLA Investment Management Limited manages the investment of the Funds.

The value of the investments may fall as well as rise and an investor may not get back the full amount originally invested.
